

Decarbonisation Leaders Network

WHO ARE WE?

The Decarbonisation Leaders Network (DLN) is a global community of over 200 senior executives from across the hard-to-abate sectors with organisations such as Amrize, Cemex, Lhoist, Saint Gobain and many more.

We have built an active community of influential leaders from across industries; and have curated an environment where our members openly discuss the challenges and opportunities across the available decarbonisation pathways, which in turn, generates meaningful connections & knowledge exchange that gets to the heart of our mission... to accelerate carbon & energy management

EXAMPLE THEMES WE FOCUS ON

- CCUS Landscape, funding, technology, policy and more
- Decarbonisation global policy
- Hydrogen Policy, Hubs and investment
- Industrial Cluster & Hubs
- Energy transition & tomorrow's energy mix
- Alternative fuels & Bio economies
- Finance and investment opportunities
- Making industrial scope 3 emissions plans manageable, reliable and targeted
- ...and much more

OUR APPROACH

PEOPLE: With 200+ leaders active within our membership we can help connect you to the right people straight away. Targeted introductions to peers tackling critical decarbonisation issues – we help facilitate these to people who will become central to your personal network and allow you to share your experiences with them.

EVENTS: Access monthly meetings, networking sessions, Decarb Connect conferences, exclusive reports, fireside chats, panel discussions and monthly structured meetings with DLN members to tackle your most important questions, with fellow DLN Members and many more decarb stakeholders and leaders.

INFORMATION: Identify new technologies, strategies, and business models with members and working groups committed to solving the biggest challenges ahead of the decarbonisation race. Learn and share with the leaders who are dedicated to furthering the knowledge of the decarb space.
